FORM 1-2 Declaration on Schedule 1 Chemical Activities at the Facility during the Previous Year

Declaration and reporting requirements are set forth in Part 712 of the CWC Regulations (15 CFR 712).

If you produced more than 100 grams aggregate of Schedule 1 chemicals during the previous calendar year, you are a declared Schedule 1 facility and must submit Form 1-2. Note: Undeclared Schedule 1 facilities and trading companies that have reporting requirements for exports or imports of Schedule 1 chemicals are not required to submit Form 1-2.

FOR THE ANNUAL DECLARATION ON PAST ACTIVITIES, you must submit a separate Form 1-2 for each Schedule 1 chemical you produced, consumed, stored and/or transferred domestically from your facility in any quantity during the previous calendar year.

Submit Form A to identify any additional information (e.g., chemical name, chemical structural formula) you submit with your completed forms package.

In the upper right-hand corner of this form, enter the facility name or U.S. facility code (once assigned) that you entered on Form 1-1 (Schedule 1 Facility or Trading Company Identification).

For each Schedule 1 chemical being declared, provide the CAS Registry Number, if assigned, and the Chemical Name. If the chemical is not specifically listed by Chemical Name and CAS Registry Number in Supplement No. 1 to Part 712 of the CWC Regulations (15 CFR 712), you must attach the structural formula of the chemical to Form A. Check the box to indicate that you have attached the structural formula.

Question 1-2.1: Identify the quantity of the Schedule 1 chemical produced at the facility during the previous calendar year. Report the quantity of the chemical to the nearest gram.

NOTE:

- 1) You may not produce Schedule 1 chemicals for protective purposes.
- 2) If this Schedule 1 chemical was produced, you must also submit a Form 1-2 A.

Question 1-2.2: Identify the quantity of the Schedule 1 chemical consumed by the facility during the previous calendar year. Report the quantity of the chemical to the nearest gram. Check the appropriate box(es) to identify the purpose(s) for which the chemical was consumed.

Question 1-2.3: Identify the maximum quantity of the Schedule 1 chemical stored at any time at the facility during the previous calendar year. Report the quantity of the chemical to the nearest gram. The quantity reported should include all types of storage (e.g., tanks, process vessels, on-site shipping containers) at the declared facility.

Question 1-2.4: Identify the quantity of the Schedule 1 chemical stored at the facility at the end of the previous calendar year (i.e., the quantity stored on December 31 of the reporting year). Report the quantity of the chemical to the nearest gram.

Question 1-2.5: Identify whether this facility transferred the Schedule 1 chemical **to other facilities in the United States** during the previous calendar year, and the aggregate quantity (rounded to the nearest gram) involved in the transfers. If transfers within the United States did occur, also complete form 1-2B for each transaction. NOTE: Do NOT check the "yes" box in question 1-2.5 if your company exported (i.e., transferred the chemical to a recipient outside the United States) the Schedule 1 chemical. Exports should be recorded on Form 1-3.
